Mechanical engineering freshman at San Diego State University seeking an internship in the engineering field to gain experience. CAD, programming, and hands-on design skills paired with leadership experience developed through 10+ years of competitive team athletics.

EDUCATION

San Diego State University — Expected May 2030
B.S. in Mechanical Engineering

San Ramon Valley High School — Danville, CA — June 2026
Graduated with Highest Honors · GPA 4.00 unweighted / 4.35 weighted

SKILLS

CAD	SolidWorks, OnShape
Programming	Python, JavaScript, C#
Fabrication	3D printing, MIG welding

EXPERIENCE

Team Member — Aztec Baja SAE, San Diego State University — Sept 2026 – Present
Main Focus: Suspension

- Designed a front wheel hub in SolidWorks.
  - Ran FEA simulations to evaluate stress under braking, cornering, and impact loads acting on the hub.
  - Applied design-for-manufacturability principles so the part could be machined in-house.
- Assisted in building the car and verified suspension performance and function.
  - Placed 3rd in Suspension & Traction and 3rd in Maneuverability at Baja SAE Ohio (Sept 24–27, 2026).
- Collaborated across multiple subteams to keep projects on schedule and running smoothly.

Employee — Round Table Pizza, Alamo, CA — Oct 2024 – May 2026

- Delivered fast, accurate customer service during high-volume rushes, taking orders and resolving concerns professionally.
- Handled cash and card transactions with accuracy and accountability.
- Coordinated with a diverse team, using basic conversational Spanish when needed, to keep daily operations running smoothly.

Team Captain — Mustang Soccer Club ECNL & High School Varsity Soccer — 2020 – 2026

- Led a 20-player elite competitive club team as captain for all six seasons in ECNL; captain senior season of high school and led the team to a California state championship
- Coordinated with coaching staff to run practices and set team goals; mentored newer and younger teammates.
- Balanced a national-level training and travel schedule with a full academic course load.
